Anti-Competitive Agreements with competitors such as allocation of customers and territories, restricting the amount of supply and bid rigging are also prohibited.

Attention should be paid to the language used in in-company correspondence and interaction with competitors and Competitively Sensitive Information must not be shared with them.

Particular attention must be taken in any contact with the employees of competitors. Especially in meetings

where competitors come together such as associations, councils, trade associations; in the case of anti-competitive speeches by others, such sharing must be immediately warned, if the speeches continue the meeting must be abandoned and this situation must be recorded and KoçMedikal Legal and Compliance Department must be informed concerning what needs to be done afterwards.

KoçMedikal may have a Dominant Position in the different markets in which it operates. In this case, employees carefully carry out their activities in accordance with the requirements of the Dominant Position. Although the determination of dominant position is evaluated separately for each market based on the market shares of undertakings, competitors and some specific factors, KoçMedikal should avoid the following practices that can be regarded as an abuse if it is in a position that can be considered as dominant in a market in which it operates:

- Implementing pricing strategies that exclude competitors from the market or discriminate against specific customers such as offering non-objective loyalty discounts to increase the number of sales.
- Requiring the purchase of one product conditional on the purchase of another product.
- Refusal to provide goods or services without objective grounds.
- Conduct activities to prevent competing undertakings operating in the market or seeking new entry into the market.
- Providing different terms for similar acts to equal buyers.
- Imposing excessive pricing and/or offering contracts that contain unfair commercial terms.
